WELCOME TO ABC MONTESSORI

ABC Montessori was established in September 1995 at our Cawthra Road campus. Our reputation has grown throughout the years as an excellent academic school that truly cares about each and every one of our students.

Program Statement

At ABC Montessori, we believe that children are competent, capable, curious and rich in potential. We will do our best to ensure that your child's school experience is an enjoyable and fruitful one. Our curriculum will address the academic, physical, social and emotional needs of all students. From a strong academic curriculum, to a diverse set of extracurricular activities and events, your child's education will be comprehensive and enriching.

Your child will gain the greatest benefits from his or her school experience when the home and school are in philosophical agreement. We believe that the responsibility of ensuring a student receives a good education is shared by the school and parents. School staff and parents are partners, working together to ensure that we instill sound values, guide and inspire students to reach their full potential. To ensure that students receive the support and encouragement they need for their development, an open relationship must be maintained between the school and parents. This relationship is based on mutual trust and respect for each other in our respective roles. ABC Montessori staff will always provide you with honest assessments of your child's progress. Any decisions made by the teachers or school administrators, or any advice, recommendations or reports given to parents regarding a student are made with only the well-being of the student in mind. When necessary, ABC Montessori will involve local community partners and allow these partners to support the children, their families and staff. Teacher / Parent communication is ongoing throughout the school year through Parent Nights, Parent / Teacher conferences, private meetings and informal discussions.

At ABC Montessori, we believe that education is the foundation for life. The education that a child receives at an early age is one of the most important factors that will determine his or her future. The impact of early education is felt throughout a person's life. A student's school experience must be positive and fulfilling. We believe the school environment must be warm and nurturing. ABC Montessori's educational philosophy is based on educating the "whole child". Teaching a student structure, discipline, good work habits, time management and practical life and social skills is as important as academics. We believe that building self-confidence, independence and motivation will give a person the ability to attempt new things, to be a leader and to always put forth their best effort.

Goals

- To provide an enriched experience and create a love of learning.
- To develop a child's potential to the fullest.
- To guide children in their development and stimulate growth and socialization.
- To ensure students have a solid understanding of the fundamentals of mathematics and language.
- To give students the opportunity to fully explore science and technology and gain an appreciation for discovery and invention.
- To develop creative thought, critical thought, and logic abilities.
- To help students find alternatives, to invent, and to imagine.
- To encourage students to explore their natural interests, creativity and skill

Foundations for Learning

Our Toddler and CASA programs are centered around the foundations of Belonging, Well-Being, Engagement and Expression.

We promote the health, safety, nutrition and well-being of the children by providing healthy meals and snacks in positive eating environments, provide opportunities for children to practice self-help and self-care skills based on each child's capabilities. We provide regular daily opportunities for children to be physically active and explore the world around them and provide safe and stimulating outdoor spaces for active play.

Our teachers recognize and support children's developing self-regulation abilities and design environments that are attuned to children's varied sensitivities. Aside from academic time, a student's day will include indoor and outdoor play time, active play, rest time, quiet time and group discussion time.

Teachers spend time with each individual student to ensure his or her learning and development is supported and create individual programs if needed to address specific needs. Teachers work closely with the supervisor to come up with strategies to help each student.

We foster student's exploration, encourage interaction and communication by designing environments and experiences that spark curiosity, invite investigation, promote cooperative play and provide challenges. Teachers participate with students as a co-investigator and co-learner. Our teachers continuously seek new ideas to facilitate student's exploration and understanding of the world around them. Teachers take students out of the classroom to explore nature and living things. Teachers and students will talk about how things work, grow, etc.

Teachers foster communication by being attuned and responding to student's cues as well as engaging in authentic reciprocal communication with students. Teachers facilitate communication between students by helping them listen to and express themselves to one another in a variety of situations and activities. Teachers provide the time and materials to encourage expression through activities such as visual and creative arts.

Teachers provide child initiated and adult supported experiences by using the Montessori learning approach and traditional teaching approach.

Staff are encouraged to seek continuous professional learning. The supervisor will assist staff in identifying learning opportunities.

ABC Montessori is constantly reviewing and assessing the impact of all of our strategies through regular discussions with teachers, supervisors and parents. The supervisor keeps a journal for each class where discussion notes are recorded.

School Policies, Rules and Standards

One of the most important trademarks of any good school is that there are a set of policies and rules in place that must be strictly followed and which are not negotiable.

ABC Montessori has established the following Policies, Rules and Standards that must be adhered to by everyone in our school community. These have been put in place to maintain order, allow us to effectively manage the school, comply with government regulations, and to establish a standard of behavior. These policies and rules are not negotiable. They are in place for the benefit of everyone at ABC Montessori and they assist us in providing the best education for our students.

General Conduct

Everyone in the ABC Montessori community, including Teachers, Students, Parents, School Management and Visitors must conduct themselves in a professional, courteous manner and treat one another with respect. Anyone using foul language, physical or verbal abuse, threatening another person, or causing a disturbance will not be permitted at ABC Montessori. Any disagreement that may arise between different parties must be solved through respectful and cordial discussion.

Prohibited Practices

The following practices are prohibited.

- Locking the exits of the school for the purpose of confining a child, or confining the area or room without supervision unless such confinement occurs during an emergency
- Using a locked or lockable room or structure to confine a child if he or she has been separated from other children

Staff must follow the Behaviour Management Policy. The supervisor will monitor Program Statement compliance and Behaviour Management through class observations and discussions. A record of ongoing monitoring will be kept by the supervisor in a Program Statement / Behaviour Monitoring log book and monitoring form.

Staff contraventions of policies and procedures and commission of a prohibited practice

Contraventions of policies, procedures and commission of a prohibited practice will be dealt with in ways that reflect the nature of the contravention. Measures may include written warnings, suspensions and dismissal. Any measures taken will be recorded and evidence of that recording will be kept in a secure location for 3 years. If the contravention is related to a prohibited practice, the school may involve outside authorities and the school will cooperate with any investigation.

If a child is frequently late for school, he/she may be discharged from school permanently. Please see "Discharge Policy".

Our Education System

ABC Montessori believes that the most effective educational system combines Montessori learning with traditional teaching methods. CASA students use workbooks and readers in conjunction with their hands-on work with the Montessori learning materials. Our elementary classes use ***traditional learning techniques*** (not Montessori) as well as advanced multimedia resources that provide an exciting, vibrant learning atmosphere.

What is Montessori?

Montessori education is based on the work of Italian pediatrician and educator Dr. Maria Montessori, whose research in the first half of the 20th century gave birth to an educational system that has grown world wide. Through her extensive observation and insight, she developed a philosophy based on the natural development of children and their intrinsic desire to explore, discover, and learn from the world around them. She saw education not as an end in itself but as an aid to life. Learning to be kind and courteous is as important as learning the sounds of letters.

Montessori education addresses not only the academic, but also the physical, emotional and social development of the child. Thus, Montessori education is an integrated approach whose aim is to fulfill the needs of the “whole child”. The Montessori Method creates a supportive and stimulating environment where the child can unfold intellectually, emotionally and socially to manifest the special self within. Rather than force-feeding information to children, the “Montessori method” provides the child with surroundings specially prepared to encourage and reward the young mind’s quest for understanding.

Our Programs

At ABC Montessori, we offer Toddler and Pre-CASA (18 months – 2 ½ years), CASA (2 ½ – 5 Years) & Elementary programs (SK to Grade 5). Our Toddler, Pre-CASA and CASA programs are based on the Montessori educational philosophy while the elementary program incorporates proven traditional educational concepts.

In addition to the core curriculum in all of our programs, we emphasize French, Art, Music, and Physical Education.

1. Toddler and Pre-CASA Programs

ABC Montessori has developed a creative Early Childhood curriculum that incorporates sound educational principles with activities to keep young minds engaged.

Toddler classes offer learning centers where children can work individually or in small groups. Teacher-directed activities are balanced by ample time for exploratory play and personal discovery. The Toddler class is a caring and responsive environment.

The Toddler and Pre-CASA Programs are specifically designed for your child to develop a sense of self, oral language skills, early socialization skills, basic cognitive concepts, sensory-motor skills, and creative self-expression.

Schedules are designed to balance structure and free choice, as well as active and quiet times. We teach a love of learning by allowing children to experience their own stage of development and helping them to feel success without pressure.

2. CASA Program

Our CASA program is a combination of Montessori and Traditional learning. Students learn through the use of Montessori materials and traditional learning materials such as workbooks, textbooks, readers, projects, experiments and homework. We are more academic focused than a traditional Montessori school.

Dr. Maria Montessori discovered that in the development of the child, there are “sensitive periods”. At certain predictable stages, children pass through periods of sensitivity to such things as order, courtesy, touch, practical life and language. We combine this knowledge with the use of Montessori materials (special apparatus developed by Dr. Montessori) to provide children with a strong foundation for learning and personal growth in their crucial formative years.

Montessori educational programs promote self-discipline and social competence. The materials and exercises are designed to stimulate independent exploration and satisfy curiosity.

Our CASA Classroom

Entering a Montessori class room, is entering a world specially prepared for the comfort and stimulation of a child. The Montessori classroom is a designed environment where children work together or individually with multi-sensory materials that invite them to touch, to think and to experience.

One of the distinguishing characteristics of a Montessori School is the total preparation of the classroom to the needs of the growing and learning child. The school itself is designed as a “developmental aid” in which materials, furnishings, and decoration are selected to offer the child an orderly yet stimulating setting for exploration. Specially designed and tested materials are arranged to attract the child’s interest to a broad range of practical life exercises, sensory skills and academic fundamentals. As the child progresses, these materials serve to build a lasting framework of knowledge based on touching, seeing and hearing. This framework is quickly filled with true understanding of the concepts required for a lifetime of learning as the fundamentals of Mathematics, English, and French language skills, Science and Geography, Art and Music are revealed.

3. Elementary Program

Our elementary programs encourage the student to expand his or her knowledge from a concrete foundation to the wider abstractions in knowledge of Mathematics, Language, French, History, Geography, Science, Computers and Music. In addition to the strong core curriculum, our programs include Practical life activities, French, Music, Arts & Crafts and Physical education.

Our Elementary programs foster competency and mastery of skills through a very strong academic program. Students in this program progressively explore various subject areas through classroom discussions, independent study and personal projects. This develops individual learning and research skills, self-direction and a sense of responsibility. Students become good managers of their own time and talents, and are therefore better prepared for their further education and adult life. Our elementary classrooms are controlled environments, where behavior is carefully monitored and corrected.

Our elementary curriculum **exceeds** the Ministry of Education guidelines. At ABC Montessori, we use the Ontario government’s guidelines as a starting point from which to expand our own curriculum. Our curriculum has been developed over the past 23 years and has proven to be very successful and rewarding for students.

Specialized Services

Individual specialized programs may be developed for a child with certain special needs, if we believe that student can still benefit from our program. In addition to the regular daily routine, qualified resource teachers may conduct their own programs for students with special needs.

Our Faculty

ABC Montessori's teachers are education professionals dedicated to giving each child the best and most complete educational experience. They believe that practical life and social skills are as important as academic learning, and building good work habits are much more important than natural ability.

The teacher serves as the link between the student and the learning environment, observing each child's progress, introducing the next step to enable the child to master a skill.

Our Teachers are specially trained in methods of arranging, maintaining and presenting the prepared environment, in observing the child's development, and in helping children teach themselves as only they can.

At ABC Montessori, we maintain low student/staff ratios that allow the teacher to understand each child's own individual development and work closely with each of them to provide the best personal learning environment. Our teachers are selected not only for their experience and education but also for their personality, rapport with young children, and dedication to the total development of the child.

ABC Montessori does not permit students or volunteers in the school. If Students or volunteers were in the school, they would never be left alone with children.

Meals

Children can learn to enjoy a wide variety of nutritious foods if introduced at an early age. We encourage children to experience nutritious snacks and a balanced lunch comprised of the four food groups (such as milk group, bread/cereal, meat, fruits/vegetables) to develop good eating habits. CASA and Toddler students are provided with meals by a reputable catering company in the food industry. The weekly food program menus are posted in the lobby. When available, we offer an optional food program for our elementary students where nutritious lunches may be purchased.

Elementary Students who bring their own meals to school must observe good eating habits. Teachers will monitor meals to ensure students are eating healthy. ABC Montessori does not permit students to bring fast food to school on a regular basis. Students should come to school with meals as parents are not permitted to drop off food during the day.

ABC Montessori is a nut free environment.

Students and staff are strictly prohibited from bringing nuts to school.

Absences

We ask that parents inform us if their child will be absent from school. The school will call the parents/guardians on the second day of absence from the school if we have not been notified.

Birthdays

Birthday cakes, other snacks and loot bags are not permitted in our CASA and toddler classes.

Birthday cakes may be permitted at our elementary campus only if parents have made arrangements with the teacher ahead of time and if no student in the class has a serious food allergy. Parents who bring cakes or treats for birthdays must provide plates, forks, and napkins. We do not maintain inventories of these items for such purposes.

School Uniform Policy

The school uniform is mandatory for each child attending ABC Montessori, with the exception of Toddlers. The uniform must also be worn on all special occasions and on field trips unless otherwise suggested.

School uniforms are only available for purchase at InSchoolWear. You may visit the store or shop online at inschoolwear.com.

The uniform policy cannot be compromised for any reason. Any student who is not in proper uniform on any given day may be sent home. **Anyone unwilling to follow school uniform policy on a regular basis may be discharged permanently from ABC Montessori. Please see “Discharge Policy”. The school uniform is a very important part of our identity and philosophy and we thank you for your anticipated cooperation.**

We do not want you to be inconvenienced, or your child to miss out on an activity because of a misplaced letter. A copy of each general letter is also posted on the notice boards. Parents or guardians are asked to read the information on the boards and check the website for important information.

Field Trips

We may take our school children on field trips during the school year. Permission slips with descriptions of the trips will be sent to all parents prior to the trip. We request parents of CASA students to join and voluntarily assist us in school trips. Should you be interested in helping us, please indicate so on the permission slips.

*Please take note of the dates on trip letters and respond by the due dates so we can confirm the number of students and adults with the organizations and or facilities involved.

Please note that as per Ministry of Education legislation, parents joining us on trips must have a "Vulnerable Sector Check" done from a Police force. There is a cost for this.

Beginning of a School Year

The beginning of the school year is very exciting for children and their parents. Being away from parents, meeting new people and starting a new routine can be exciting for some children and cause for anxieties in others. We ask parents to discuss the school routines with their children before school actually begins. It is very important to help lessen their anxieties. Show your child that you are excited about their attendance at school and never let them see your own anxiety.

We request parents to bring their children to the school front door and hand them to the care of the staff. It is important that you leave the school as soon as you hand over your child to the teacher. Staying with your child because he / she is crying will only prolong your child's anxiety. Please do not go into the class.

The school is not responsible if a child is dropped off in the parking area or left alone at the front door of the building. **Leaving a child in the parking lot is strictly forbidden. Anyone doing so will be asked to leave ABC Montessori.**

Special Activity Days

We arrange special activity days throughout the year such as sports days, pizza days, bowling days, etc. These special days will break up the daily routines, give the students a well-deserved break from academics and allow them to enjoy fun activities with their friends.

Letters will be sent home informing parents about these days. Please read them carefully and prepare the children with appropriate clothing, etc. when necessary.

Extra-Curricular Activities (Cancelled for 2020-2021)

For students 4 years of age and older, ABC Montessori offers Gymnastics and Skating as our main extra-curricular activities. Each program is an eight to twelve week activity, taking place once a week for the duration of the activity. These activities are meant to teach students a skill as well as to allow them to have fun and get away from the classroom routine. These programs are taught by professional instructors under close supervision by ABC Montessori staff. Letters are sent home outlining these activities in detail.

Toys in School

The ABC Montessori environment is prepared to respond to your child's needs for stimulation and growth. The staff are trained to help new and anxious children become comfortably involved in the classroom activities. Toys are not allowed in the school, unless they form a part of a show and tell day. ABC Montessori is not responsible for the loss or damage of any toys brought to school.

Homework

CASA students will be assigned homework once a week. The homework is intended to be done by the student, with parental guidance.

Elementary students will have homework on a daily basis. Students should do the homework by themselves, with parental supervision and assistance when required. Each elementary student will be provided with a homework agenda book in which the daily homework will be noted.

It is very important that students return the homework and projects to school by the date requested by the teacher. Any missed or late homework or project will not be graded and it will be reflected in the student's final grade as reported on the student report card.

Communication & Parental Involvement

(In person meetings are cancelled for 2020-2021)

We believe a child's education must be a cooperative venture. This joint partnership between parents and educator allows the child to benefit from a consistent environment in which to grow and develop.

Your child's teacher is interested in your child's academic as well as emotional and social progress. The teacher is also interested in the child's home routines and behavior. Knowing what a child does at home helps to explain certain behavior and attitudes in school. Please do not hesitate to inform the teachers of any problems or insights into your child's behavior.

We encourage parental involvement through parent-teacher conferences, parent nights, curriculum nights, special events and field trips. If you ever have any questions, please do not hesitate to call and set up a time to speak with the teachers.

We will have two formal parent / teacher conferences during the school year to discuss your child's progress, answer any questions you may have and show you a report card. These conferences will be held during the months of January and June. Appointment sign-up sheets will be posted on the notice boards. Please sign up for a conference time that is most suitable to you. We will also have informal parent nights throughout the year to discuss general issues concerning parents and students as well as discuss any new initiatives the school has planned. We will notify you about the dates of any upcoming events through school letters.

Anaphylactic Policy

This policy is in place for all CASA and Toddler students

PURPOSE:

To ensure that students at risk are identified, strategies are in place to reduce the risk of exposure to anaphylactic causative agents, to follow an established emergency protocol, develop individual action plans for each student with an anaphylactic allergy and to establish a communication plan.

POLICY:

1. Strategy to reduce the risk of exposure to anaphylactic causative agents

To reduce the risk of exposure to anaphylactic causative agents, ABC Montessori has implemented the following policies and procedures:

- a. ABC Montessori is a nut free environment.
- b. ABC Montessori's menus do not include shellfish
- c. Students are not permitted to share their food, utensils or food containers with other students.
- d. Students must wash hands before and after eating.
- e. Food preparation and serving surfaces are cleaned and sanitized before meals.
- f. Any person buying food for the school will read the ingredients label before purchasing.
- g. Any person serving packaged food at the school will read the ingredients label before serving.
- h. Catered food will include allergy information.
- i. Allergy lists are posted in each classroom, kitchen and gym.
- j. Allergy lists are revised as new students with allergies enroll.
- k. Other foods or allergy causative agents may be restricted depending on the life threatening allergies of the children enrolled.

Anaphylactic Policy Cont.

2. Communication Plan

- ABC Montessori provides general information on life threatening allergies, including anaphylaxis, to all parents and school staff. We distribute this information to parents through a letter and parent handbook. Staff receive an information package.
- ABC Montessori obtains information from parents about their child's medical conditions, including any risk of anaphylaxis. Parents are required to complete a medical form and discuss any medical conditions with the school before a student begins school.
- A letter is distributed to all parents and staff, advising them of any students with life threatening allergies and the foods and causative agents to be avoided.
- The strategies to reduce the risk of exposure to life threatening allergies are reviewed on an ongoing basis. The strategies will be reviewed and amended as required when a new student with allergies is enrolled at ABC Montessori.
- An allergy list is posted in all food preparation areas, eating areas, classrooms and activity rooms. The allergy list is revised whenever a new student with allergies is enrolled at ABC Montessori.
- The school's caterer is advised of any foods or causative agents not to be used in food prepared for ABC Montessori and appropriate food substitutes to be provided. The caterer is updated whenever new students with allergies enroll at ABC Montessori.

3. Individual plan and emergency procedure

An individual plan is developed for each child with an anaphylactic allergy. This plan is developed with the parents of the student and whenever possible, with input from the student's physician.

The individual plan includes the following:

- A description of the allergy
- Monitoring and avoidance strategies
- Signs and symptoms of an anaphylactic allergy
- Action to be taken by school staff in the event the student has an anaphylactic reaction.
- Parent / guardian consent that allows the school staff to administer the allergy medication in the event their child has an anaphylactic reaction
- Emergency contact information

4. Training

Where a student has an anaphylactic allergy, the school's supervisor and class teachers will receive training from the students' parents on the procedures to follow in the event of a child having an anaphylactic reaction, including how to recognize the signs and symptoms of anaphylaxis and how to administer medication. Once the supervisor has received training, he / she will train all other staff. Staff will review the anaphylactic policy before starting work at ABC Montessori, three times a year and whenever a new student with an anaphylactic allergy enrolls at ABC Montessori.

Anaphylactic Policy Cont.

Parents must observe the following policies. These policies are not negotiable.

ABC Montessori is a **NUT FREE** environment. Students and staff are prohibited from bringing nuts to school.

These policies may change from time to time as necessary and we will keep you informed of any changes.

The only way to be safe is absolute avoidance of possible anaphylactic causative agents. Allergies can develop at any time in life.
