

ABC MONTESSORI PARENT/GUARDIAN COVID-19 SCREENING AGREEMENT

What is COVID-19?

COVID-19 is a new strain of coronavirus that has not been previously seen in humans. The virus can cause symptoms like the common cold but can advance, in some cases, to severe respiratory illness or even death. COVID-19 can be spread from person to person, usually after close contact with someone infected with the virus.

Health and Illness Protocol for COVID-19

Children who are ill should not attend the child care setting.

Children should not attend child care if any member of their household is:

- ill with COVID-19 symptoms OR
- isolating as a close contact of someone with COVID-19

To manage the risk of spreading illness within the child care setting, Peel Public Health has provided direction on cleaning/sanitation protocols and personal health care practices including frequent hand washing. Peel Public Health also requires daily active screening of all individuals arriving at the child care setting.

ALL CHILDREN must be screened **DAILY**. Parents/guardians are required to report any symptoms in household members and to take the temperature of children attending child care prior to arriving at the child care setting. Parents/guardians will report the information to staff during the active screening process or during the self-assessment for children attending school. In addition to daily screening, all children will be monitored throughout the day for emerging signs or symptoms of illness.

Your COVID-19 screening results, including contact information, collected by the child care setting during the screening process, may be provided to Peel Public Health, to help manage and reduce the risk of spreading the COVID-19 virus in the child care setting.

As a Parent/Guardian, you can prevent the spread of illness by keeping your child(ren) home from the program if your child does not pass screening. **Any siblings (or any other children living in the same household) must also not attend school or child care and stay home.** If you, household members or your child(ren) experience signs or symptoms (not related to other known causes or conditions) described in the **COVID-19 Child Care/School Screening poster**, your child must not attend child care.

If your child(ren) experiences **any** new or worsening COVID-19 signs or symptoms while at the child care setting, the staff will contact you or one of your emergency contacts to pick up your child(ren) **immediately**. While your child(ren) waits for you or your designate to arrive, they will be separated from the other children.

A COVID-19 test is strongly recommended for any family member experiencing symptoms before the family can return to child care. The child(ren) and all household members including any siblings attending the child care setting should also self-isolate while waiting for the test results.

- Children who have tested negative for COVID-19 or have an alternate diagnosis from their health care provider AND whose symptoms have been improving for at least 24 hours can return to the child care setting after passing the daily screening process.
- Children who have tested positive for COVID-19 will follow the direction from Peel Public Health on when they can return to the child care setting.
- Children who did not get tested must be excluded from child care for 10 days from the start of their symptoms unless a health care provider has specifically not recommended COVID-19 testing. Household members including siblings must isolate for 14 days from their last contact with the ill child before they went into self-isolation.
- Children who had close contact with a person with COVID-19 must self-isolate for 14 days from their last close contact with the person or as directed by Peel Public Health.
- If anyone in the child(ren)'s household is isolating as a close contact of someone who has COVID-19, the child(ren) must stay home for the duration of the household member's isolation period. NOTE: If the household member was fully vaccinated prior to an exposure to COVID-19 OR the household member was asked to test for COVID-19 but not isolate (i.e. routine employment testing), the child(ren) are not required to stay home. **Fully vaccinated individuals** are individuals who have received their second dose of a two-dose COVID-19 vaccine series or their first dose of a one-dose COVID-19 vaccine series, 14 days ago or longer.

- To care for a child's well-being and provide emotional support, the child and one caregiver can isolate together. For tips, please visit: [self isolation - Region of Peel \(peelregion.ca\)](http://selfisolation-regionofpeel.ca).

Staff will support the arrival and pick up routine for families. Upon arrival, once a child(ren) has completed active screening and been deemed able to enter the setting, staff will escort the child(ren) into the child care setting. Parents/guardians are discouraged from entering. Pick-up and drop-off of child(ren) will occur outside the child care setting unless it is determined that there is a need for a parent/guardian to enter.

To protect the health of all individuals at the child care setting, all children AGES 2 AND ABOVE are required to wear a non-medical or cloth mask while inside the child care setting, including the hallways, and outdoors if physical distancing cannot be maintained.

Parents/guardians are responsible for providing their child(ren) with a mask(s). If your child is unable to wear a mask for any reason, please inform the child care staff. Reasonable exceptions are permitted including those who have trouble breathing, unable to wear a mask for medical reasons or unable to remove mask without assistance. Proof of a mask exemption is not required.

As a Parent/Guardian responsible for my child(ren)'s child care placement, I agree to the following:

- I have read and understood the above information;
- I understand the risk of illness associated with placing my child(ren) in child care services;
- I agree to all screening requirements and to accurately respond to all screening questions daily;
- I will not administer any medication to my child(ren) that may mask the symptoms of illness, such as Tylenol or Advil, prior to dropping my child(ren) off at the child care setting;
- I agree to exclude **all** of my children from child care **immediately** upon observing **any** of the above signs or symptoms of illness in any **household** member until medically deemed able to return to care **OR** if any of my children do not pass screening;
- In the event of illness, I agree to verbally report to the child care centre **any illness** and any test results (positive or negative for COVID-19) and/or clearance by Peel Public Health **immediately when known;**
- I understand that all children AGES 2 and above are required to wear a non-medical or cloth mask Parents/guardians are responsible for providing their children with masks; and
- I understand that failure to accurately respond to any screening requirement and/or misrepresentation of any health and safety requirement may result in the termination of my child care placement.**

COVID-19 Screening

Notice with Respect to the Collection, Use and Disclosure of Personal Health Information

The information pertaining to your COVID-19 Screening is being collected, used and disclosed under the authority of the *Health Protection and Promotion Act R.S.O. 1990 c.H.7* and will be retained, used, disclosed and disposed of in accordance with all applicable municipal, federal and provincial laws and regulations governing the collection, use, disclosure and disposal of information including the *Municipal Freedom of Information and Protection of Privacy Act R.S.O. 1990 c.M.56* and the *Personal Health Information Protection Act 2004 S.O. 2004 c.3*.

This information will be used by Peel Public Health to investigate the occurrence of COVID-19 in the Region of Peel, provide case management, follow-up with close contacts to assess the risk to others, program planning and evaluation. If you test positive for COVID-19, your result may be disclosed to your child care provider to reduce the risk of spreading the virus in a child care setting. Any questions, regarding this collection, use or disclosure may be directed to the Medical Officer of Health, Peel Public Health, 7120 Hurontario Street, P.O. Box 669 RPO Streetsville, Mississauga, Ontario, L5M 2C2, 905-791-7800.
